

2024 Internal Revenue Code Section 6055 Reporting—Minimum Essential Coverage

Purpose: Form 1095-B is used to report certain information to the IRS and to taxpayers about individuals who are covered by minimum essential coverage. Eligibility for certain types of minimum essential coverage can affect a taxpayer's eligibility for the premium tax credit.

Key forms:

- *IRS Form 1095-B Health Coverage*—A personalized *IRS Form 1095-B* must be sent to each primary participant who was covered during the reporting period.
- IRS Form 1094-B Transmittal of Health Coverage Information Returns—Transmittal form IRS Form 1094-B must be sent to the IRS. Form 1094-B confirms the total number of Forms 1095-B sent to participants. Additionally, the reporting entity must submit to the IRS copies of all IRS Forms 1095-B it sent to covered participants.

Who must comply: Section 6055 reporting requires health insurance issuers, employers or annual conferences sponsoring self-insured health plans and others (including HealthFlex as a multiple employer plan) that provide "minimum essential coverage" (MEC¹) to report this coverage to the IRS². Additionally, Section 6055 requires health plans to provide a statement regarding MEC to each primary participant regarding all covered individuals (employees, spouses, dependents and any other covered beneficiaries).

Reporting responsibility within the UMC:

- For HealthFlex plan sponsors: Wespath Benefits and Investments (Wespath) will complete the Section 6055 reporting for all individuals covered by HealthFlex.
- For all other annual conferences with self-insured health plans: Annual conferences will have to comply with the Section 6055 reporting requirements. Note that conference offices and other salary-paying units that also are applicable large employers [50 or more full-time equivalent employees (FTEEs)] must satisfy Section 6055 reporting by completing Section 6056 reporting. (See separate document—Internal Revenue Code Section 6056 Reporting.) Section 6055 reporting must still be completed for individuals covered under the self-insured annual conference plan that are not employees of the conference office (e.g., a clergyperson appointed to a local church with fewer than 50 employees).
- For all other annual conferences sponsoring fully-insured health plans: The issuers of health insurance policies should perform the Section 6055 reporting, but plan sponsors should confirm that will be the case. In addition, conference offices and other salary-paying units that are also applicable large employers (50 or more FTEEs) will have to submit additional information (e.g., premium amounts) under the Section 6056 reporting requirement in addition to meeting the 6055 requirement. (See separate document—Internal Revenue Code Section 6056 Reporting.)

Completion of IRS Forms 1095-B and 1094-B—HealthFlex Plan Sponsors

Wespath will complete and distribute *IRS Form 1095-B* for all HealthFlex participants and submit both *Forms 1095-B and 1094-B* to the IRS as described above. No action is required from HealthFlex plan sponsors for completion of these forms.

¹ Minimum essential coverage (MEC) is health coverage that satisfies the Affordable Care Act's individual mandate.

² Note that MEC also includes Health Reimbursement Account (HRA) balances that are not integrated with medical coverage. For example, if a participant terminates coverage but still has an HRA balance available, the HRA balance is still reported as MEC until the balance is depleted.

Considerations for Completing IRS Form 1095-B—Self-Insured Health Plans Not Sponsoring HealthFlex

Below is the process which HealthFlex will use for completing *IRS Form 1095-B* for HealthFlex participants. This process may be useful in helping self-insured conferences not sponsoring HealthFlex determine how to complete the required *Forms 1095-B*.
