# Finding an In-Network Dentist in HealthFlex

Using an in-network dentist is required if you are enrolled in the HealthFlex DHMO\* plan, and highly recommended if you are enrolled in the PPO plan.

Follow these instructions to see if your dentist is in the Cigna network used by your plan.

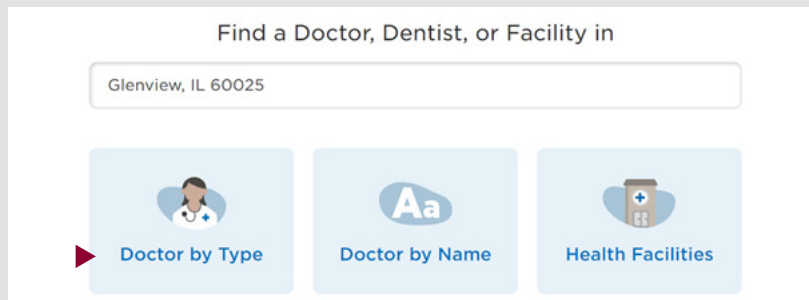

1. Go to [www.cigna.com](http://www.cigna.com)
2. Click on “Find a Doctor”

3. Click “Employer or School”

4. Enter zip code and click “Doctor by Type”

(continued)

\*DHMO: Dental Health Maintenance Organization

5. Select “General Dentist”

6. On the Login/Register pop-up, click “Continue as Guest”

7. Click “Continue”

8. If you are looking for an in-network dentist for the **DHMO**, choose “Access Plus.” Only Access Plus providers are covered under the DHMO.

If you are looking for an in-network dentist for the **PPO**, choose “Advantage.” In-network benefits only apply to providers in the Advantage network.

Dentists in the network within 25 miles of your zip code will be displayed.
