Coming to HealthFlex in 2024

Wespath Care Coordinators Will Help You Navigate the Complex World of Health Care

Beginning in January 2024, all HealthFlex members will have access to care coordinators—a team of nurses, benefits experts and claims specialists dedicated to making your health care journey easier. When you need help finding a provider in your network, solving a claims issue, learning about your benefits, and anything that can make your health care journey simpler, your care coordinators will help you get the most out of your health benefits. This service, provided by Quantum Health, will:

- **Guide your—and your family’s—health journey** from diagnosis through treatment
- **Advocate for you around medical costs**, finding and working with providers, documentation, claims and more
- **Point you to the highest quality of care** while maximizing your benefits to save money

More information about care coordination services will be shared in the coming months. Wespath is excited to offer this important service, which will make health care easier for individuals and families in HealthFlex.

New Health Savings Account (HSA) Plans to Maintain IRS Compliance

The IRS is expected to increase the 2024 minimum deductible for qualified HSA plans, so HealthFlex will be updating its HSA plan options to ensure compliance.

If you are already in an HSA plan, stay tuned for details about the new 2024 plans and which one might be the best match for you. All plans will still have the same nationwide PPO network and cover the same medications as well as a new care coordination service that will be available to all HealthFlex members.
